

## Now is the time to become a citizen

### Why now?

The N400 – the form all legal permanent residents must fill out to apply for citizenship – will be changing in the coming months.

The form will get twice as long, with new questions on moral character being added. The good news is that you still have a few months left before the changes take effect.

SAAVI, in partnership with the New Americans Campaign, provides low-cost and high-quality citizenship services for legal permanent residents—ranging from free legal expertise and assistance to civics test preparation and help with fee-waivers.

And you can get started right now. Our next workshop is from:

**9am - 2pm**

**Saturday Jan 25<sup>th</sup>, 2014**

**Sri Venkateswara Temple and Cultural Center**

**26233 Taft Rd Novi, MI 48374**

Register today at a workshop convenient to you!

### What are the benefits?

We'll make it easy, simple and affordable. Over the last two years, the New Americans Campaign has helped more than 80,000 people apply for citizenship nationwide -- and saved them over \$67 million in legal fees and fee waivers.

In metro-Detroit, we've already helped 100's of your neighbors get citizenship.

But it's not just the money you'll save today. New Americans stand to gain many benefits – both financial and personal – once they become citizens.

A newly naturalized worker in Michigan stands to earn over \$2,700 more in his/her lifetime than one who did not naturalize – with most of that increase coming within a decade after becoming a citizen.

The benefits of citizenship are immediate and tangible.

There's no better time than now to take that step – at our event on [date], our staff and legal experts can help you save money and time on your citizenship application.
